City of New Bedford
Attn: Mr. George Brightman
133 William Street
New Bedford, Massachusetts 02740

SUBJECT: Replacement of Water Main on Sawyer Street for the
New Bedford Harbor Clean-up Project

Dear Mr. Brightman;

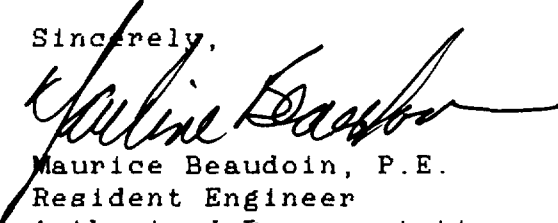

This letter is to inform you that we are still waiting for your technical reasons for requiring that the water main under Sawyer Street be replaced.

Once again, in order for us to proceed with a modification to accomplish the work, we need to be able to technically substantiate your request.

We are willing to meet with you or other City Officials either on site or off site to discuss this issue.

If you have any questions or would like to arrange a meeting, please contact Mr. Tim Rezendes or myself at (508) 990-2550.

Sincerely,

Maurice Beaudoin, P.E.
